Gulf Coast South Division: Import/Export Fumigations

Chris Mack
CSE Gulf Regional Manager

Central States Enterprises and CSFS's top four managers have been in the fumigation industry for a combined 90+ years. Chris Mack alone has been in the fumigation industry for over 25 years, a little over half of them with Roger Sanborn and Central States.

Mack is CSE's long-time appointed Gulf Coast Regional Manager

Pictured above: Gulf Coast Regional Manager Chris Mack

stationed in its Kenner, LA offices. Mack has been a licensed fumigator for 19 years and counting.

The Gulf South Manager recalls some of his first priorities when joining CSE over 12 years ago, "My first priority was safety, organization, and building more business for the Gulf Coast." He currently employs 12 technicians and 7 licensed applicators, and is always looking to expand and grow the company.

Something Mack looks forward to every year are the annual reports from all the regions and reviewing the accomplishments from the year.

Mack enjoys being more "hands-on in [his] position, and getting to meet different people from other companies and developing good relationships with them." He also notes that their location is ideal because of the proximity from the elevators around Louisi-

ana, and he enjoys catering to customers in Arkansas, Mississippi, Alabama, Georgia, and Florida.

He is always excited by all the work that comes his way being with a trusted, experienced organization:

"I'm excited about all of our work, every ship we board, and satisfying our customers," stated Mack.

When asked what is something he and the Gulf South Region bring to the table that competitors do not, he said, "[We have] great service and of course [we value] safety first."

Mack said that he is "looking forward to the future of our company and hoping to expand the Gulf Coast. It's truly been an honor and pleasure working on the river the last 25 years. I have met a lot of great people. I also want to thank Roger [Sanborn] for giving me the opportunity to be a part of the CSE family."

Central States Expanding Into the South

Roger Sanborn
CSE President and CEO

Long before 2004, we have been servicing the greater Gulf South Region and its fumigation needs; however, it was in 2004 that we established a physical office with a manager to personally and more easily care to our ever-

growing customer base.

The Gulf South prides itself on true blue collar work ethic. With offices in Kenner, LA and Houston, TX we cover a seven state area providing the best fumigation products and services to our customer's doorstep.

As we continue to expand our services in

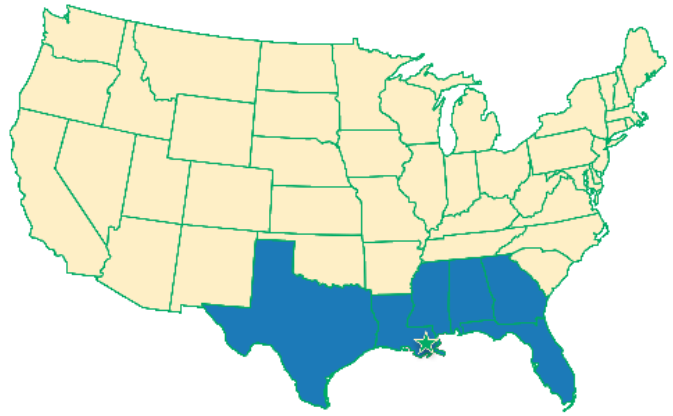

Arkansas and Southern Oklahoma, we are looking forward to new business relationships and con-

tinuing to be the premier provider of fumigation products and services from coast to coast.

CSFS Gulf Coast Division: A Brief History

Central States Fumigation and Services - Gulf Coast Division was founded in 2004. This division extends our service base to the port handling facilities in the gulf areas. CSFS - Gulf Coast specializes in services relating to the fumigation of export vessels, inland barges, raw agricultural product, storage warehouses, food processing facilities, and PPQ work to the various industries in the gulf south region.
